Project Meeting Notes Year IV

Week Starting:	01/10/2019 TO
Student Name:	Greg Cahill

Description of work completed since previous meeting Notes : Also record project backlog, use notes page as required
While researching some former academic papers, this https://github.com/pond3r/ggpo became free to use commercially, which is a very well designed and easy to implement rollback net code package. Notable games that used it before it became free commercially are skullgirls, injustice 2 and Killer Instinct(2013). I did a deep dive into this since it was very coincidently topical to what I was working on.

Tasks to be completed this week Notes: record any additional tasks on notes page as required.

1	Create and define a problem statement as requested from lei's email.
2	
3	
4	
5	
6
